IODP Expedition 320 - Hole U1331A

The following figures show the main logs recorded in Hole U1331A during IODP Expedition 320.
All the data displayed can be downloaded from the IODP logging database:
   http://brg.ldeo.columbia.edu/data/iodp-usio/exp320/U1331A

The figures were generated automatically, including the estimation of ranges used for the data, and
regardless of their quality. To get a more complete assessment of the quality of the data and a
description of the processing, check the processing documentation:

Each measurement was recorded during several passes, acquired while lowering the tool string down
the hole or while pulling it uphole.

The first figure displays the data over the longest pass for each type of measurement.

The second figure combines all the data from all passes for each measurement.

The labels for each curve are derived from the name of the file in the database used for the figure.

The core data shown were collected from holes at the same site.
