NGHP Expedition 1 - Hole 17B

The following figures show the main logs recorded in Hole 17B during NGHP Expedition 1. All the data displayed can be downloaded from the NGHP logging database:

http://brg.ldeo.columbia.edu/data/nghp/exp1/17B

The figures were generated automatically, including the estimation of ranges used for the data, and regardless of their quality. To get a more complete assessment of the quality of the data and a description of the processing, check the processing documentation:

http://brg.ldeo.columbia.edu/data/nghp/exp1/17B/documents/1-17B_info-std-wireline.html

Each measurement was recorded during several passes, acquired while lowering the tool string down the hole or while pulling it uphole.

The first figure displays the data over the longest pass for each type of measurement.

The second figure combines all the data from all passes for each measurement.

The labels for each curve are derived from the name of the file in the database used for the figure.
The following figure shows the main LWD (Logging While Drilling) logs recorded in Hole 7A during NGHP Expedition 1. All the data displayed can be downloaded from the NGHP logging database:

http://brg.ldeo.columbia.edu/data/nghp/exp1/7A

The figure was generated automatically, including the estimation of ranges used for the data, and regardless of their quality. To get a more complete assessment of the quality of the data and a description of the processing, check the processing documentation:

The logs displayed are the main data recorded by each of the tools deployed.
NGHP Expedition 1 - Hole 7D

The following figures show the main logs recorded in Hole 7D during NGHP Expedition 1. All the data displayed can be downloaded from the NGHP logging database:

http://brg.ldeo.columbia.edu/data/nghp/exp1/7D

The figures were generated automatically, including the estimation of ranges used for the data, and regardless of their quality. To get a more complete assessment of the quality of the data and a description of the processing, check the processing documentation:

http://brg.ldeo.columbia.edu/data/nghp/exp1/7D/documents/1-7D_info-std-wireline.html

Each measurement was recorded during several passes, acquired while lowering the tool string down the hole or while pulling it upright.

The first figure displays the data over the longest pass for each type of measurement.

The second figure combines all the data from all passes for each measurement.

The labels for each curve are derived from the name of the file in the database used for the figure.
